Introduction xi

1

MATH HOMEWORK AS PRACTICE 1

Example Activities	2
<i>Numbers on a Pathway</i>	2
<i>Rethinking Worksheets</i>	7
<i>If 3 Is 5% of a Number, What Is 30% of That Number?</i>	16
Additional Assignments	18
<i>Number Jumble</i>	18
<i>What Three-Digit Number Could I Be?</i>	19
<i>Shoot the Outlaw</i>	19
<i>Plus or Minus</i>	21
<i>Operation Zero</i>	21
<i>Newspaper Geometry</i>	21
<i>Vowel Fractions</i>	21
<i>Company for Dinner</i>	22

2

MATH HOMEWORK AS PREPARATION 23

Example Activities	24
<i>Multiplication Matrix</i>	24
<i>The Twelve Days of Christmas</i>	27
Additional Assignments	35
<i>Ways to Make Change for a Quarter</i>	35
<i>Remainder Riddles</i>	35
<i>Can-It Fractions and Decimals</i>	36

3 MATH HOMEWORK AS EXTENSION 41

- Example Activities 42
Finding Differences 42
Venn Diagrams 45
When Will You Be Ten Thousand Days Old? 49
- Additional Assignments 52
The Average Life Span of a Penny 52
Lions and Tigers and Bears 53
Domino Dots 53
A Million Pints of Milk 53
One Hundred Letters 53

4 MATH HOMEWORK EMPHASIZING CREATIVITY 55

- Example Activities 57
Cooperative Cards 57
Neither Rain nor Snow nor Dark of Night 61
All About Rice 62
Estimation Centers 65
- Additional Assignments 69
The Water Project 69
Food Projects 69

Conclusion 71

Appendixes

- A What You Can Do to Help Your Child With Math Homework This Year 73
- B Characteristics of Good Math Homework 75
- C Variables Associated With Homework 77
- D Questions a Teacher Might Want to Ask About Homework 79
- E General Research Findings About Homework 81
- F Good Resources for Math Homework Ideas 83
- G Good Catalogs to Have on Hand 85
