

Foreword by Francis (Skip) Fennell xv

How to Use This Resource xvii

Beyond Pizzas & Pies and the Common Core

A Letter from Math Coach Lori MacDonald xxv

Summary of Connections with the Common Core State Standards xxvii

Video Clips by Chapter xxxi

Video Clips by Grade, Including Demographics xxxiii

- Chapter 1 The Problem with Partitioning: It's Not Just About Counting the Pieces 1
- Chapter 2 Top or Bottom: Which One Matters?: Helping Students Reason About Generalizations Regarding Numerators and Denominators 15
- Chapter 3 Understanding Equivalency: How Can Double Be the Same? 41
- Chapter 4 Fraction Kits: Friend or Foe? 63
- Chapter 5 Is $\frac{1}{2}$ Always Greater Than $\frac{1}{3}$?: The Importance of Context in Identifying the Unit 79
- Chapter 6 How Come $\frac{1}{5} \neq .15$?: Helping Students Make Sense of Fraction and Decimal Notation 95
- Chapter 7 The Multiple Meanings of Fractions: Beyond Pizzas and Pies 111
- Chapter 8 Comparing Fractions: Do You Always Need a Common Denominator? 125

Acknowledgments 145

Reproducibles 147

Appendix: Authors' Video Reflections 177

Beyond Pizzas & Pies and the Common Core

A Letter from Math Coach Lori MacDonald xxv

Summary of Connections with the Common Core State Standards xxvii

Video Clips by Chapter xxxi

Video Clips by Grade, Including Demographics xxxiii

Chapter 1 The Problem with Partitioning: It's Not Just About Counting the Pieces 1

Classroom Scenario 3

What's the Math? 4

What's the Research? 5

Classroom Activities 7

Wrapping It Up 13

Chapter 2 Top or Bottom: Which One Matters?: Helping Students Reason About Generalizations Regarding Numerators and Denominators 15

Classroom Scenario 17

What's the Math? 19

What's the Research? 21

Classroom Activities 24

▶ **Video Clip 2a** Introducing Activity 2.1: Number Line Activities with Cuisenaire Rods 25

▶ **Video Clip 2b** Splitting the Number Line in Half 26

▶ **Video Clip 2c** The Purple Ones Work! 27

▶ **Video Clip 2d** Lizette's Strategy for Finding the Rod That Is $\frac{1}{3}$ of the Unit Interval 27

▶ **Video Clip 2e** Labeling the Number Line 28

▶ **Video Clip 2f** Using Knowledge of $\frac{1}{2}$ to Find $\frac{1}{6}$ s 29

▶ **Video Clip 2g** What Do You Know About Numbers Between 0 and 1? 30

▶ **Video Clip 2h** What Are We Learning About Numbers Between 0 and 1? 31

▶ **Video Clip 2i** Revisiting the Question, "What Are the Numbers Between 0 and 1?" 32

Wrapping It Up 38

Chapter 3 Understanding Equivalency: How Can Double Be the Same? 41

Classroom Scenario 43

What's the Math?	45
What's the Research?	47
Classroom Activities	49
▶ Video Clip 3a Introducing Activity 3.1: Measuring with Cuisenaire Rods	50
▶ Video Clip 3b "How Many Brown Rods Long Is the Marker?"	51
▶ Video Clip 3c Different Names for the Remainder Length	51
▶ Video Clip 3d What Do We Call Four White Rods?	54
▶ Video Clip 3e Making Monica's Thinking Public	54
▶ Video Clip 3f Using the Rods to Show How $\frac{1}{2}$, $\frac{2}{4}$, and $\frac{4}{8}$ Are Equivalent	55
Wrapping It Up	61
Chapter 4 Fraction Kits: Friend or Foe?	63
Classroom Scenario	65
What's the Math?	68
What's the Research?	69
Classroom Activities	71
Wrapping It Up	77
Chapter 5 Is $\frac{1}{2}$ Always Greater Than $\frac{1}{3}$?: The Importance of Context in Identifying the Unit	79
Classroom Scenario	81
What's the Math?	83
What's the Research?	84
Classroom Activities	86
▶ Video Clip 5a Reviewing the Names of the Pattern Blocks	86
▶ Video Clip 5b Introducing Activity 5.1: Pattern Block Fractions, Version 2	87
▶ Video Clip 5c What Do You Call the Triangle When the Trapezoid Is the Whole?	88
▶ Video Clip 5d Stephanie's Use of the Pattern Blocks to Support Her Reasoning	89
▶ Video Clip 5e What Do You Call the Rhombus When the Trapezoid Is the Whole?	90
▶ Video Clip 5f Is $\frac{1}{2}$ Always Greater Than $\frac{1}{3}$?	91
Wrapping It Up	94
Chapter 6 How Come $\frac{1}{5} \neq .15$?: Helping Students Make Sense of Fraction and Decimal Notation	95
Classroom Scenario	97

What's the Math?	99
What's the Research?	100
Classroom Activities	102
Wrapping It Up	110
Chapter 7 The Multiple Meanings of Fractions: Beyond Pizzas and Pies	111
Classroom Scenario	113
What's the Math?	116
What's the Research?	117
Classroom Activities	118
Wrapping It Up	123
Chapter 8 Comparing Fractions: Do You Always Need a Common Denominator?	125
Classroom Scenario	127
What's the Math?	130
What's the Research?	132
Classroom Activities	134
▶ Video Clip 8a Introducing Activity 8.1: More or Less Than $\frac{1}{2}$?	134
▶ Video Clip 8b Labeling the Number Line	135
▶ Video Clip 8c Fractions That Equal $\frac{1}{2}$	137
▶ Video Clip 8d Describing the Relationship Between the Numerator and Denominator in Fractions Equal To $\frac{1}{2}$	137
▶ Video Clip 8e Reasoning About Fractions Less Than $\frac{1}{2}$	138
▶ Video Clip 8f Using Academic Language to Describe the Relationship Between the Numerator and the Denominator in Fractions Less Than $\frac{1}{2}$	138
▶ Video Clip 8g Reasoning About Fractions Greater Than $\frac{1}{2}$	139
▶ Video Clip 8h Reasoning About Fractions That Are Equal To, Less Than, and Greater Than $\frac{1}{2}$	140
Wrapping It Up	144
